

Rap It....

Here are the beginnings of two rap lyrics, on issues about which you may have something to say :

Complete the rap (on paper, please)

Practice, and perform. You may work with a partner
If you finish, try the other one, and/or make up one of your own

Cool it, boy, 'cos you are hot,
The kids in class like you a lot,
You are the best for speakin' out
For knowin' what it's all about.
The kids respect, they know it's at,
You're in the groove and that's a fact.

Hey baby

You ain't born yet
What's the scene, when you're in-between
Your life has started, but you can't see
Don't know anyone one, don't know me...
Who's got the right to say 'You DIE....
