

## Creating a chord progression for your song

1. Press 'rhythm' and a number to select a suitable backing.
2. Set the on switch to 'Casio Chord'.
3. Press the grey 'start' button.
4. Count along to the pulse. After every 4 beats press a different key down in the 'chords' section. See how the backing changes.
5. Try using the following combination of keys.

C	A+B	F	G
1-2-3-4	1-2-3-4	1-2-3-4	1-2-3-4

You've just played the chords to 'Stand By Me' and 'Bleeding Love'. Now use this progression to write your own song. You'll need to work out how many times the chord progression needs to be played to fit in your lyrics.
